Colorado State University, BS, Outdoor Recreation, College of Forestry and Natural Resources, 1974

**Why you applied for the PM Training:**

I applied to learn a skill that would be valuable to the IT function within the BLM. I have a desire to progress the business function with the web utility and associated cost savings/increased functionality to the employee.

**How would you rate the quality and content of the training you received:**

ESI and George Washington University are the leading providers of Project Management Training. The quality and content of this series of courses is EXCELLENT. The industry hold a very high regard for the skill set required to assist the business organization.

**How do you anticipate using you new skills:**

I will use my skills and my knowledge set to keep Arizona BLM, and on Bureau projects, the Bureau accountable for investments and on time with efforts. Accountability is a personal desire in providing the best service to the public and the organization. The present dynamic IT environment in the market place will provide great opportunities for better business practices within BLM. I want to be involved in this.
